Didsbury Rink Wins Trophy at Calgary.

Edwards and his rink, Sinclair, McNaughton and Eckle, are to be congratulated on their success at the Calgary bonspiel, and bringing home with them the most valuable prize of the 'spiel, the Birks' trophy.

Edwards met Hollingquist in the finals of the Birks' competition, winning by a score of 11-10, and it was the final rock that decided the contest.

The score was 10-10 going home when Edwards chalked up two in the eleventh. In the closing end Edwards was lying with two close to the button. With his first rock Hollingquist missed when a head on drive would have carried both out of the house. Edwards then threw up a guard with his last rock and Hollingquist went up for the last rock of the game. It was perfect shot and had the rock been swept a little, he may have won the game. His rock slid into the first one belonging to Edwards, but it did not have the power to send the shot rock out as it was halted by the second one.

Score by ends:
Hollonquist, 0 1 2 2 0 1 0 2 0 0
—10.
Edwards, 2 0 0 0 3 0 2 0 1 0 2 1
—11.

Johnson and his rink, Huget, Dooley and Kendrick, who also attended the bonspiel, won a large number of games but were not successful in reaching the jewellery. In three different competitions they reached the eights, but were nosed out in each case.

Owing to electric light receipts at Innisfail going over \$15,000.00 last year the mayor (S. A. Fox) has receive notice from the Calgary Power Co. that Innisfail is entitled to a further reduction of 10c service charge. This saving is now in force in our neighboring town. This service charge has been reduced from 80c to 50c since the power company took over the plant, owing to increased business.

"Pioneer" Want Ads bring results.

LOCAL & GENERAL

Mr. F. H. Budgeon was called to Prince Albert a week ago, owing to the death of his brother.

Mrs. J. Clarke was a visitor in Olds over the week-end at the home of Mr. and Mrs. E. T. Hacking.

Mr. Ed. Ford, who has been a patient at the Didsbury hospital for the past two week was able to leave that institution on Tuesday.

The surveyors who are surveying the proposed railroad west of town moved their camp this week from Westward Ho north to the Raven River.

Remember that every Wednesday afternoon is a half holiday in Didsbury. Also keep in mind Monday Feb. 3rd, because it is nomination day.

Mr. Carl Gebert, who has been on J. V. Berscht's staff, returned to Olds last week and plans to spend the balance of the winter with his uncle, Bob Shultz.

The councillors of Innisfail are of one accord that Innisfail should have a new station and have set wheels in motion with that object in view. Didsbury is in the same boat but the oars seem motionless.

Rev. H. E. Roppel who has been in charge of the work at Warner, for the past two weeks, returned on Tuesday evening. Mrs. Roppel Rev. O. V. Hehn, of Mayton, took charge of the services during his absence.

The denominational "Day of Prayer" under the auspices of the Women's Missionary Society of the Ev Church will be observed next Sunday, Feb. 2nd. Suitable services will be conducted in the morning, afternoon and evening with the local W.M.S. in charge and these services are preceded by the observance of "Self Denial week" on behalf of home missions.

Rev. D. H. Dobson, social service secretary of the United Church of Canada will address a public meeting in the United Church on Friday evening, Jan. 30th. Rev. Mr. Hallman will act as chairman. Those who heard Dr. Dobson last year will be eager to hear him again. Didsbury is fortunate to have a visit from this expert.

Alberta Turkey On Long Journey.

An Alberta turkey from the farm flock of Mrs. R. Lockhart, Bowden, is now on his way to his new home in the West Indies, having been shipped some days ago to Misses Boyd Stimpson, of Porus, Jamaica, according to G. M. Cormie, provincial poultry commissioner.

This bird was selected by R. S. Johnson, president of the Alberta Bronze Turkey Breeders' Association and shipped to Halifax, where he was loaded on shipboard for his destination. A special crate was constructed to carry the quantity of feed and water required by the turkey during the five thousand mile trip.

Fourteen Years President of U.F.A.

Mr. H. Woods was first elected president of the United Farmers of Alberta and has been president of that body continuously since that time. He delivered his 14th annual address at the convention held in Calgary last week and was elected for his 15th term of office.

The 1930 weed inspectors' course will be held in the Convocation Hall, University of Alberta, Edmonton, Feb. 17 to 21.

I. O. D. E. Hold Annual Meeting.

A very enthusiastic meeting of Mons Chapter I. O. D. E. was held at the home of Mrs. A. G. Studer on Monday evening. The third annual election of officers was the principal order of business, the following officers being elected:

Honorary Regent, Mrs. Huget
Regent, Mrs. J. H. Lowrie
1st Vice-Regent, Mrs. A. G. Studer
2nd V.-R., Mrs. W. G. Leisemer
Secretary, Miss V. H. Sexsmith
Treasurer, Mrs. W. Keith
Standard Bearer, Mrs. McCloy
Educational Sec., Mrs. Evans
Echoes Sec., Mrs. C. Mortimer
Councillors: Mrs. Austin, Mrs. Kenbrick, Miss Elizabeth Clemens, Mrs. Caithness, Miss Ruth Leisemer, Miss Leila Piper and Mrs. H. C. Leisemer.

It was decided to hold a whist drive and dance on St. Valentine's Day.

NOTICE.

The Alberta Co-operative Live Stock Producer's Association wish to notify all old contract signers of the Livestock Pool that they have the privilege of shipping their livestock through this association and also all farmers wishing to co-operate with the pool have the same privilege until further notice.

The shipper engaged is Mr. Bob Simpson, who will be at your service at all times. Phone 41. Committee.

Didsbury Outscores Olds Sextette 5-4.

Didsbury hockey team made their first appearance in the wonderful new arena at Olds on Wednesday night and returned home victorious.

Many hockey enthusiasts were of the opinion that the locals would be lost in the larger rink but it didn't work out that way, as they scored two goals in the first three minutes of play, Johnson getting the first one from a pass by Cook, and Robinson the second in a solo rush. In the latter part of the first period Cook made a solo rush and flipped the puck past the Olds goalie. The score at the end of first period: Didsbury 3 to Olds 0.

The second stanza Didsbury were held scoreless and Olds secured two, Neely securing a very lucky one in a scrimmage and Sutherland marked up the other one. Both these goals were scored in the last five minutes.

The third period was the kind of hockey every spectator likes to see, both teams being at their best. Gooder, of Olds, soon knothed a goal which tied the score. Moyle made a solo rush and beat the Olds net guardian. Nine minutes later Robinson again scored on individual play. After this score Olds sent every man up except the goalie but only secured one more goal.

Final score, Didsbury 5, Olds 4.

First Anniversary at United Church.

The first anniversary services in connection with the Knox Church was well attended. Had the roads not been blocked many more would have been present.

Rev. Rex Brown, of North Hill United Church, Calgary, was the special preacher. Mr. Brown is well known in Didsbury and made mention of conditions prevailing here some 23 years ago. His sermon had to do with the changes in life and the permanent values in Christian living.

Nomination Day Next Monday.

Once again the electors of Didsbury are called upon to turn their attention to civic affairs. Monday, February 3rd, from 11 o'clock until noon, is nomination day and a week later, Monday, Feb. 10th, is election day.

The councillor and school trustees whose terms expire are: Councillors: Dr. J. L. Clarke, W. E. Rieder, F. H. Budgeon; school trustees: W. S. Durrer and J. A. Russell.

On Friday, Jan. 31st, the annual meeting of the ratepayers will be held in the High School Building, at 8 o'clock for the purpose of receiving the auditors report of the town and the reports of the chairmen of the various committees.

A good attendance at the annual meeting is looked for.

Rebekah Lodge Officers Installed.

The Didsbury Rebekah Lodge held their annual installation of officers on Thursday evening in the Oddfellow's Hall. Mrs. Isabel Thompson, D.D.P., of Crossfield, was the installing officers. The following officers were installed:

J. P. G., Mrs. Dooley
N. G., Mrs. Carleton
V. G., Bessie Clemens
R. Sec., Mrs. Fisher
Treas., Mrs. Stevens
Warden, Mrs. Mortimer
Chaplain, Mrs. Michiel
Con., Vera Sexsmith
R. S. N. G., Dorothy Cipperley
L. S. N. G., Miss Clemens
R. S. V. G., Mrs. McCoy
L. S. V. G., Lila Piper
I. G., Marie Kershaw
O. G., Mrs. W. G. Leisemer
Organist, Mrs. Huget

Young People Will Give Supper.

A joint meeting of the four organised groups of boy and girls was held in the United Church to plan for the mother and daughter, father and son supper which will be held in the church basement on Saturday evening, Feb. 1st.

Miss W. Gilhooly, B.A., provincial secretary of the Girl's Work Board will be present and, if possible, will stay over for the mother and daughter, father and sons service which will be held in the United Church on Sunday evening.

All girls and boys, whether they belong to the groups or not, are invited to attend the service on Sunday evening and bring their fathers and mothers along with them.

Plans were also made for the campaign for funds to be used in the promotion of girls, boys, and children's work which will begin on Monday, Feb. 3rd. The boys and girl are asking everybody to do their part in promoting christian citizenship by buying a share from the boy or girl who will call on them during the next week.

Western Canada's Air Mail

Early in this new year of 1930 there will be inaugurated Canada's first all night air mail route, thus marking another advance in the Dominion's postal service. Western Canada enjoys the distinction of being the scene of this great undertaking which will at the outset embrace all three of the prairie provinces.

This night air mail will have Winnipeg as its eastern terminus, and Calgary as the western terminus, while Regina will be the central divisional point where the 'planes will meet and transfer mails, passengers, and air express. From Regina also, at a later date, will start the night air mail for Edmonton via Saskatoon and North Battleford, and at the Saskatchewan capital the Edmonton 'planes will make connections with those from the east and west.

Citizens of Regina are fully alive to the importance of this development, and at the recent municipal elections overwhelmingly approved of a money bylaw providing for the expenditure of \$100,000 on the municipal air harbor. This is by far the largest sum yet appropriated by any western city for the establishment of terminals for the latest of all transportation systems, but, whatever the people of other centres may think about it, the citizens of Regina are convinced of the future of air transportation.

The municipal airport at Regina is being laid out on a big scale and in a comprehensive way under the direction and advice of experts. A large block of land has been set aside for the purpose, streets running through it closed, runways for the taking off and landing of 'planes from various points of the compass constructed, airdromes built, workshops and filling stations are being provided, telephone connections established, a continual weather report service arranged for, and the whole field brilliantly lighted. Motor taxi services from the airport to the railway station, post office and city hotels will be in operation.

At Regina 'planes will arrive from Winnipeg, Calgary and Edmonton nightly, and from Regina other 'planes will take off for all three cities. Already efforts are being put forth to secure the establishment of a fourth service from Regina to the nearest point in the United States on Uncle Sam's air mail routes, so as to provide for rapid communication with all United States points in the Western and Pacific coast states.

In order to make night flying safe and successful, the air routes to be followed must be illuminated, and the post office department has erected beacons at intervals of twenty-five miles all the way from Winnipeg to Calgary, and in a few months similar beacons will stretch from Regina to Saskatoon and on to Edmonton. A writer in an Eastern paper thus describes what a passenger on a night air mail 'plane will experience, starting from Winnipeg.

"As you leave behind the lights of the Winnipeg airport, then the blazing highways of the city, you see below darkness, broken here and there by the glimmer of small settlements and suburbs of the city. As the 'plane climbs higher, you become aware of crawling animals below, their two small eyes classify them as automobiles, and you know that below lies one of the provincial highways. A few minutes out of the lighted district and far ahead a peculiar light blinks. You watch it carefully, draw nearer to it, and see that it is a revolving light, a beacon, turned upwards. Somewhere below it in the darkness another colored light winks at you. That is the marking on the beacon. It tells the pilot where he is on the course. You pass the light, look back and see that it goes on winking. Then a little later another light blinks at you. If you ask the pilot he will tell you that these are the first light beacons on a Canadian airway, that they are of two million beam candle power and revolve six times a minute. They are the aerial lighthouses.

"Towns pass below, their lights marking them, and with the aid of the map which the pilot has given you, it is not difficult, if you are watchful, to know your whereabouts. The pilot explains the marking signals on the beacons and you can follow the course yourself."

And so on, passing over the Parliament Buildings to land at Regina's modern airport, where a scene of activity will be found to prevail as passengers alight, mails are unloaded or transferred for Calgary or Edmonton and intermediate points, the 'planes are refuelled, and with but a short delay are zooming their way to their several destinations.

Undoubtedly, the inauguration of this all night air mail service in Western Canada, and the enormous saving in time effected in the delivery of important mail matter, will be one of the outstanding events of 1930, the forerunner of night flying air mail 'planes all over the Dominion.

From 40 to 50 feet a day is rated as a fair distance in digging a tunnel through a mountain.

A man is sane morally, at thirty, rich mentally at forty, wise spiritually at fifty, or never.

It is estimated that on the average 23 new buildings are completed and six torn down every day in New York City.

Glasgow, Scotland, is the second largest city in Great Britain.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless,

tasteless, alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

To Hold Reunion

Ex-Students Of Manitoba Agricultural College Will Meet At Regina

Ex-students and graduates of Manitoba Agricultural College now residing in Saskatchewan are planning to hold a reunion in Regina about the end of February, probably at the end of the week, during which the meetings of the Western Canada Livestock Union takes place. Details in connection with the reunion are in the hands of an executive consisting of M. J. McPhail, chairman, Isabell Robson, Ruby Crealock, Cliff, Dempsey and W. W. Thomson. It is hoped that a large number of M.A.C. ex-students will make it convenient to attend the Regina reunion which has developed into an annual event. Write M. J. McPhail, care of Livestock Branch, Department of Agriculture, Regina, for details.

RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that thin blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is an impossible task because there is nothing to build on. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism from the system. So long as the blood is maintained in a healthy condition the trouble will not return. This is not theory. It has been proved in hundreds of cases; here is one:—Mr. J. W. Rose, R.R. 2, Albany, P.E.I., says:—"For some years I was a great sufferer from rheumatism and although I tried a great many remedies I did not get any permanent relief until after I took Dr. Williams' Pink Pills. The trouble was located mostly in my shoulders, and at times was so bad that my right arm was almost useless. Of course I suffered much pain and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this meets the eye of any rheumatic sufferer my advice is try Dr. Williams' Pink Pills at once." You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Subscribe To Memorial

German Sub Engineer Promises Aid For Welland Project

Many touching incidents have been recorded in the drive for funds in the Welland-Crowland War Memorial campaign, but none as sincere as the promise of support from Fred Zalud, who conducts a small hardware business in the market line, at Welland, Ont. Mr. Zalud served as submarine engineer with the German navy during the entire period of the world war on the North Sea and Atlantic Ocean, and is wholeheartedly behind the memorial project.

Persian Balm promotes daintiness, charm and beauty. It is unrivalled in its magical effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delightfully cool to the skin. Stimulating and invigorating. Softens and makes the hands flawlessly white. Subtly fragrant. Imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

North American Fish

U.S. Bureau Of Fisheries Ships Nineteen Varieties Of Fish For Breeding Purposes

The North American continent, says the National Geographic Society, Washington, has four times as many varieties of fish than Europe. In the last five years the United States Bureau of Fisheries has shipped breeding stock of 19 varieties to foreign countries, some of them having been found to thrive even better in their new element than in their native waters. From Argentina came word that "American trout and bass have thrived so well that there are too many of them."

Scotland and Belgium are the two European countries in which the accord, which celebrated its centenary this year, are most popular.

Canadian Doctor

Acclaimed By U.S.

Child Mind Concern Of Dr. W. E. Blatz, Mental Hygienist

In at least one department of Mental Hygiene, Canada is admittedly leader on this continent.

Very quietly, during the past few days, leaders in child study in the United States gathered in Toronto to investigate the methods of Dr. W. E. Blatz, professor of psychology, of the University of Toronto, whose study of the mental hygiene of children has in the words of a well-known psychiatrist, "taken him out of the laboratory and into the home and school."

Representatives of such outstanding organizations as the Laura Spelman Memorial Fund, the Julius Rosenwald and McCormack Funds, of Chicago, and the University of Chicago, conferred here with Dr. Blatz, carefully examined his methods, expressed unqualified approval and stated their intentions of encouraging the adoption of those methods in American cities.

The superiority of Dr. Blatz's methods lies in the fact that he works with living material, rather than with theories. For six years he has catalogued and cross-indexed the seemingly insignificant vagaries of pupils at a certain public school in Toronto, and plans to follow these pupils through high school and the University, into the workaday world, gathering material as they go, which may be of value to students of the mind.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

New Technical School

To Be Erected In Saskatoon At a Cost Of \$500,000

Saskatoon's new technical school, to be erected at a cost of approximately \$500,000, will be built on Spadina Crescent, in the central part of the city, the high school board decided at a recent meeting. Necessary property, west of the Armories, will be acquired for approximately \$66,000.

The cost of the technical school is to be divided between the city, provincial and federal governments. The city's share is \$250,000, approved in a recent bylaw, and the two governments will contribute \$125,000 each.

Minard's for the Ideal Rubdown.

Shipment Of Live Mink

The largest shipment of live mink ever sent from St. John, N.B.,—and perhaps from any other Canadian port—to Europe left on the S.S. Montcalm, for Germany, December 12th. There were 240 animals in all, two-thirds of which were males. Ninety-six silver foxes from Prince Edward Island also were conveyed on the same vessel.

Additions To Canadian Navy

Royal Canadian Navy Strength To Be Increased By Two New Destroyers

The expenses of the Royal Canadian navy ran to \$1,836,487.65 during the fiscal year ending March 31, 1929, according to figures published in the annual report issued by the Department of National Defence.

The total strength of the navy during the year was 94 officers and 616 men. The strength of the Royal Canadian Navy volunteer reserve, at the end of the fiscal year had a strength of 62 officers and 795 men.

The placing of contracts for the construction of two new destroyers also makes a definite advance as heretofore no new ships have been commissioned for service in the Royal Canadian navy.

The report mentions elsewhere, that the cost of these two new ships the Saguenay and the Skeena, which are to be delivered in 1931, will be \$3,350,000, including armament.

Drives Asthma Before It. The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relieving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

Girls who work in Japanese mills receive, on an average, the equivalent of \$15 a month in wages.

A Good Idea

is, to treat all sore throats, bronchitis, croup, bronchitis, cough, whooping-cough and tonsilitis with "Mrs. Sybilla Spahr's Tonsillitis," good results or money back, you can't lose, try it. \$1.50 post paid. Agencies wanted.

Canadian Art Shows Distinctive Character In Notable Collection Of National Gallery of Canada

An accession of 20 new pictures to the National Gallery of Canada, the most important group acquired at any time for any collection on this continent, has featured the general activities of that body for the past year. The various schools of ancient and modern art are now represented, to a much more substantial degree than heretofore, with the old masters retaining a prideful place alongside the enterprising and robust generation of artists whose vigor and daring have contributed distinctive character to Canadian art.

The most recent development of a stimulating phase will be displayed when, on January 23, His Excellency the Governor-General formally opens the Canadian Exhibition at the National Gallery.

It is expressed that this will be the most representative ever held in Canada, since new arrangements have now been made for the assembling of pictures. Some complaints were voiced in the House of Commons last session to the effect that in those annual displays the painters of the central provinces appeared to have entirely crowded out those from the east and west coasts; and the opinion was advanced that this might be due to prejudice on the part of those responsible. In order to obviate any such charge, the trustees have completed a scheme whereby outstanding artists of the various cities in Canada may constitute themselves advisory committees and recommend to the trustees the works of local painters. This has had the effect of bringing to light artists of hitherto unknown merit, and of assembling a collection representative of Canadian art from Halifax, N.S., to Victoria, B.C.

Many developments are foreshadowed for the National Gallery in the near future. For some considerable time the inadequacy of the present building, which is shared with the Victoria museum and the Department of Mines, has forced itself upon the government. The restricted quarters have made it impossible for the gallery to exhibit all its treasures, and thus deprived the people of their right to enjoy their possessions. To this post war generation the most unfortunate element in this is the fact that the Canadian war memorial pictures have been forced from the gallery's walls and are now stored away, out of sight.

This collection, valued at over \$1,000,000 and which could not under any circumstances whatever be replaced, was acquired during the war by Lord Beaverbrook's war memorial committee. The paintings depict every phase of Canadian war activity; and many outstanding battles fought by the Canadian Corps have been translated on canvas. Portraits of Canadian soldiers, Victoria Cross heroes, and well-known officers are numerous in the collection.

Modern artists of the calibre of Sir William Orpen, Augustus John A. J. Munnings, A. Y. Jackson, Cyril Bauraud and scores of others contributed to this immense group, which numbers over 1,000 pieces. Some old masters are also included—works by Romney, Lawrence, West and Reynolds. The entire collection was given to the Canadian people nine years ago, but due to lack of room it cannot be exhibited.

"That is a nice overcoat — how much did it cost?"

"I don't know—I haven't been summoned over it yet."—En Rolig Half Timma, Gothenborg.

W. N. -U. 1819

(By Annebelle Worthington).

A simple daytime model in Princess suggestion with panels over hips curving toward the front emerging into circular fullness at hem create panel at front to lengthen its line.

The collarless neckline shows chic touch of femininity in cascading jabot frill. Sleeves are fitted with darts below the elbows.

It is interpreted in navy blue wool crepe so entirely serviceable for all-around occasions.

It's an opportunity to have a snappy dress that can be made at a very small outlay.

Style No. 3115 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

In tweed in Spanish red coloring in new feather weight with matching shade bone buttons at neckline, it is delightfully smart and youthful.

Mid-night blue crepe marocain with jade green piping at neckline and edge of jabot is strikingly smart and wearable.

Dark brown canton crepe with self-fabric piping is extremely fashionable.

In lustrous crepe satin in black, it is unusually distinctive with the godets and piping cut from the dull surface.

Bottle green transparent velvet, printed sheer velvet in dark red tones and cashmere-purple faille silk crepe are exclusive combinations for afternoons and Sunday supper wear.

Pattern price 25 cents.

A Pearl Among Collar Buttons

When Chauncy Rundle Watson was 17 years old, he was given a shiny gold collar button for his birthday. He recently observed his 49th birthday still wearing the same shiny gold collar button. He has worn the button continually for 32 years and not even once has it been mislaid, he solemnly declares.

A man never really gets an accurate estimate of himself until he wants to borrow his neighbor's lawn mower.

Province Developing Resources

Saskatchewan Clay, Coal and Chemical Deposits Being Exploited

The past year has been a busy one for the manufacture of clay products in Saskatchewan according to Professor W. G. Worcester, of the Ceramics Department of the University of Saskatchewan.

A new plant has been started at Prince Albert during the past year for the manufacture of common brick and a plant at Estevan for terracotta and floor and wall tile. The company at Estevan has built an additional plant for the manufacture of hollow building tile.

"There has been greater development during 1929 of the mineral resources of Saskatchewan than in any previous year," Prof. Worcester claims. "More than 100 lakes in the province have large deposits of sodium sulphate. At Englebright a depth of 150 feet has been drilled without coming to the bottom of the deposit. This chemical is now being used in metallurgical work and the Saskatchewan deposits are beginning to have a value as they are unusually pure. One firm in Canada is at present using 25,000 tons of sulphate a year from their plant near Ormiston. The sulphate is also used in the pulp industry."

"During the year the experimental briquetting plant at Estevan passed into commercial hands and is now shipping out 100 tons per day. A new process of carbonizing the lignite promises to be of great benefit to the Saskatchewan deposits."

Officers Elected

Canadian Sheep Breeders' Association Elect Directors For 1930

Mr. R. W. Wade, secretary-treasurer of the Canadian Sheep Breeders' Association, announces that the mail ballot, closed December 15th, electing directors for the Maritimes, Manitoba, Alberta and British Columbia, resulted as follows:—Maritimes, Ronald Chisholm, Antigonish, N.S.; Manitoba, George Gordon, Oak Lake, Man.; Alberta, John Wilson, Sr., Innisfail, Alberta; and George R. Ball, No. 2, Strathcona, Alberta; British Columbia, Leonard Higginson, R.R. No. 2, Sardis, B.C. The directors for Ontario and Quebec will be elected at the provincial annual meeting of the Association, taking place in February, and for Saskatchewan, at the annual meeting of the Canadian Association, in March.

Butter Imports

Imports Of Butter Into Canada Doubled In Past Year

Butter imports into Canada doubled in the twelve months ending November 30. The figure for the period was \$11,424,000 as against \$5,567,000 in the preceding twelve months. Other imports of milk products remained about the same, bringing the aggregate value of \$12,150,000.

In November alone, butter imports were up to \$1,085,000 from \$667,000 in the preceding month. Figures were made available at the Dominion Bureau of Statistics, Ottawa.

Traffic over the Iraq-Syria trans-desert automobile route is rapidly increasing.

Opinion Favors Movement To Be Made To Settle Arable Lands In H. B. Railway Area

Between miles 137 and 327, on the Hudson Bay Railway, lies a vast belt of clay land awaiting to produce good crops for the pioneer who has the courage to go north and homestead. A year ago Hon. Charles Stewart, minister of the interior, declared that the government was ready to help homesteaders get a start in northern Manitoba. But there has been negligent interest to date among Canadians. Now the suggestion has been made that Mennonites be imported to start agricultural band wagon "north of 53."

Harbored in Germany today there are thousands of Mennonites who are refugees from Russia. Mennonites, who have settled in western Canada in recent years have become known as good farmers, hard-working, businesslike and peace loving. At the present time prominent westerners argue that federal authorities should modify restrictions to allow these refugees to pioneer in the northland.

The entire matter will likely come before northern boards of trade after new year. In northern Manitoba the opinion is growing that a move must be made soon to settle the agricultural regions in the Hudson Bay Railway area.

In a recent editorial headed "A Chance For the Mennonites," The Northern Mail, of The Pas, remarked that "the Mennonites are good farmers and not afraid of work. They can be pioneers. If they were shown this great belt of northern country early next spring, with its proximity to the markets of the world, its rich clay soil, its lumber, its fur and its bordering lakes and rivers teeming with fish, they would be interested. They could start a farming community in the north country, and with some government help could prosper." About 17 varieties of wheat have been grown beyond The Pas. Not all of the tests have been eminently successful, but plenty of progress has been made to prove that fortunes in agriculture lie dormant in northern Manitoba.

The clay belt contiguous to the Bay line is an extension of the Ontario belt, says a recent report of the Federal Department of Agriculture. Last summer, an expert agriculturist of the experimental farms branch, made a survey of the territory between Hudson Bay Junction, Sask., and Mile 445 of the Bay Railway.

In a summary of his tour, he said: "From Mile 137 to 327 the line passes through the clay belt and there is much good soil not hampered by rock, that, once drained from muskeg, will make good agricultural territory. Most of the mining people think a person is insane who appears in the north country to seek agricultural possibilities. Notwithstanding this lack of faith, I am convinced that when this territory is needed for settlement, the possibilities are there."

And dairy farming is another industry that would flourish in the north country. Of course, it will naturally follow land settlement.

Wooded terrain predominates from

Hudson Bay Junction to The Pas. And heavy timber continues to Cormorant, Mile 42, on the Bay road. There are also many outcroppings of rock.

Gardens are numerous at Cormorant, however, and trial plots of wheat, oats and barley were ripe on August 25, when the agriculturist inspected them. Wheat samples included Garnet, Reward, Ceres, Marquis, and Minden. The stands were from 40 to 48 inches in height. Alaska, Gopher, Banner and Victory were included in the oats samples.

At Mile 185, George Cowan boasts a good flower and vegetable garden. The touring agriculturist was surprised at the flourishing fruit trees. The crab apple and the plum trees were in fine shape, and a good crop of raspberries was harvested. Potato yield was again splendid, and Garnet, Reward and Ceres wheats grew well. Oats and barley were more than satisfactory.

Two homesteads are established at Mile 214. Garden plots are good, but conclusions as to general soil fertility cannot be reached until next year. Mile 237 produced a bumper crop of vegetables, including lettuce, onions, peas, beets and potatoes.

Vegetables prospered at Mile 327 this season.

General farming has not been attempted beyond Mile 327, but once settlement is under way the march of the agricultural frontiers northward will progress on its own momentum.

Saskatchewan Fisheries

Total Value Of Catch More Than Half A Million Annually

The fact that Saskatchewan fisheries run to a total value of more than \$500,000 annually is of particular interest, in view of the negotiations now pending for the return of the natural resources. Fish caught in Lake Athabasca, the greater part of which lies in Saskatchewan, are not included. For some reason federal authorities in making their reports, give Alberta credit for all the fish caught in that lake, and the value in 1928, the last year for which figures are available, was \$256,000. Cold Lake is another for which Alberta gets full credit, but in that case the greater part of the lake is in Alberta, and the total catch is light.

The varieties of fish caught commercially in the province are gold-eyes, herrings, mixed fish, pickerel, pike, sturgeon, millets, trout (lake), tullibee and whitefish, the latter having a market value of \$439,075.

Claim Is Discounted

Isolation Of Flu Germ Not Yet Accomplished, Says Medical Journal

Publishing the preliminary report of Dr. I. S. Falk, on his isolation of the influenza germ, the Journal of the American Medical Association says that while Dr. Falk's work is of great interest, it does not warrant the assumption that the way to an influenza vaccine has been found.

The journal asserts that "to intimate" as was said in numerous interviews, editorials and other publicity relative to this discovery, that the way is now clear for vaccine or antitoxin or any other specific method of treating influenza is to go far beyond the actual evidence provided by this bacteriological research.

DOG DERBY CHAMPION

Emil St. Goddard, 24-year-old French-Canadian dog derby champion, hopes to meet Leonard Seppala, Alaskan musher, in the 200-mile non-stop marathon being staged at The Pas next March. St. Goddard, who has won the race for the past five years, is seen with some of his dogs. The black one is Toby, his aged, but still famous leader.—(S.N.S.).

"Congratulations! I have heard that you are to be married."

"I have never thought of such a thing."

"Congratulations." — Gutierrez, Madrid.

IMPORTANCE OF CLEAN**SEED IS EMPHASIZED**

Since final returns issued by the Dominion Bureau of Statistics show that crops throughout the greater part of Canada were below the average in 1929, the question of seed supply assumes even greater importance than usual, and farmers are advised to make free use of the Dominion-wide Government Seed Service. They are also urged to take great care in seeing that the seed grain sown receives proper attention in the way of cleaning and grading.

The Dominion Government has gone to great expense in establishing a series of seed-testing laboratories from the Atlantic to the Pacific, and at these places up to three samples of each farmer's grain will be tested free of charge. With this service at the disposal of the farmer there is no excuse for buying blindfolded; and for the greater protection of the buyer it is contrary to law to sell anything but graded seed, the grade to be plainly visible in the advertisement and on the bag. Where anything else is offered the officials point out, it is always advisable to send a sample to the nearest government laboratory, where an opinion of the real value will be given. Laboratories are located at Quebec, Ottawa, Toronto, Winnipeg, Saskatoon and Calgary.

The seed drill survey conducted in Ontario last year and similar surveys throughout the different parts of the Dominion in the past years have shown that weed-seeds in huge quantities are actually being sown by the farmers themselves. The greater part of seed grain used, if examined in the seed laboratories, would not even reach the lowest of all official grades, grade 3. On the other hand if tested, clean and plump, well-graded seed were used, this seed would outyield the ordinary variety by a margin sufficient to cover five or six times the extra cost of such seed.

"The weed menace is growing, and the losses due to it are enormous," stated Prof. J. E. Hewitt, of the Ontario Agricultural College, where hundreds of samples of seed are analysed yearly. Many farmers' samples, according to Prof. Hewitt, contain as high as 72 seeds of Canada thistle alone to the ounce, which would mean about 17,280 thistles to the acre, with each plant replacing several plants of the grain besides ruining the grade of the crop.

THE ANNUAL CHECK UP

The first month of the new year and still a few of the many resolutions made are unbroken. How many people resolved to have that yearly

LOCAL & GENERAL

Hockey to-night (Thursday), Airdrie at Didsbury, 8 o'clock.

Mr. W. H. Davies was a business visitor to Calgary this week.

Miss Vera Sexsmith was a visitor to Edmonton this week.

Mr. and Mrs. Morgan are spending this week in Calgary.

Rev. A. E. Hayes occupied the pulpit of the North Hill United church, Calgary, on Sunday.

Mrs. John Cameron, of Calgary, spent last week visiting at the home of Mr. and Mrs. W. G. Leisemer.

The women's curling club is in full swing, four rinks making the welkin ring.

Mr. and Mrs. Robt. Beattie, of Hamiota, Manitoba, arrived on Tuesday on a visit to Mr. and Mrs. Jack McCloy.

Mr. and Mrs. A. G. Studer went to Calgary on Wednesday to celebrate the birthday of their grandson.

Mr. and Mrs. Kendrick attended the dairyman's ball, held at the Palliser Hotel, Calgary, on Wednesday last week.

Mr. L. V. Swingle, of Calgary, spent a few days here last week, visiting and looking after business interests.

Pauline Stark in "The Viking," at the Movies on Friday and Saturday. This picture is 100 per cent technicolor.

The Mons Chapter of the I.O.D.E. will hold a whist drive and dance in the Oddfellows Hall on St. Valentine's night, Feb. 14th.

Mr. C. E. Reiber left on Monday to attend the annual convention of the C.P.R. colonization board, which is being held at Winnipeg.

Melvin Go-Getters are holding a short program, box social and dance at the Melvin School, Friday evening, Jan. 31st. Everybody come and help along with the Hall. Good music.

Rev. W. A. Miller, of Tennant, formerly of Didsbury, was a weekend visitor at the home of Mr. and Mrs. H. M. Reiber. Mr. Miller was in Calgary for two weeks taking medical treatment. We are pleased to hear that he has sufficiently recovered to be able to return home.

On Tuesday, Feb. 4th, a whist drive and dance will be held in the Didsbury Opera House, under the auspices of the Masonic Benevolent Fund. Refreshments to be served. Cards 8.30 to 11, dancing 11 to 2. Admission 75c. Everybody welcome.

physical check-up, and how many have had it done?

This is a quiet month for all work, indoors as well as outdoors. The head of the house is busy with those repairs or replacements to outhouse and machinery that is a preparation for the busy spring and summer months ahead, so why not have the human machine checked over at the same time and have any necessary repairs done there? Your body can be repaired; it can never be replaced. There are no spare parts for the human body; but it will, and does, respond to fair play. Give it half the care that is expended on the cheapest automobile and it will give excellent service over a long time.

Tuberculosis and cancer, to name just two diseases, can be arrested, if diagnosed in the early stages. They work such havoc of suffering and sorrow if not diagnosed until too late. Will you make that appointment with your physician and take the members of your household with you. This is really important for YOU.

The all-lines championship in the Canadian Pacific Railway First Aid Competition has been won by the police team of the Windsor station Montreal for the first time in the history of the championship. Winners took 315½ points out of a possible 425, the nearest to which — the team from Nelson being 268½. Members of the winners were Owen Tomlinson, William Peterson, Ernest G. Wykes, William H. Allison (Captain), and Andrew H. Stott.

More than three hundred people from the west left Winnipeg on Canadian Pacific Railway special travelling to ship's side at Saint John to sail on Duchess of Richmond, December 14, to spend their Christmas and New Year holidays in Great Britain. The majority of the travellers represent workers on the land rather than city dwellers.

With the objective of being one of the largest and most palatial buildings of its kind in the continent, the new clubhouse of the Colwood Golf and Country Club at Victoria is rapidly nearing completion and will be ready for formal opening in time for the second annual Empress mid-winter tournament to be played over the famous course February 17-22. It is in replacement of the clubhouse destroyed by fire about a year ago.

Honolulu welcomed S.S. Empress of Canada, giant flagship of the Canadian Pacific "Empress" fleet, when the crack liner arrived December 13, inaugurating Canadian service to the Hawaiian port, with a brilliant civic reception in which the Mayor, the Chamber of Commerce and leading civic representatives and organizations took part. Honolulu gave a real old time "Aloha" greeting proving its enthusiasm at the decision of the Canadian Pacific Steamships service to include Honolulu as a frequent port of call.

America's first sea-going Christmas Music Festival will take place aboard Canadian Pacific liner Duchess of Bedford which sails from New York December 23 on a 16-day cruise of the West Indies. A special choir has been selected for carol singing and the ship's orchestra will play Christmas music dating from the earliest Yuletide observances in England and Europe. Elizabethan pageantry, old-time English and American dances, Yule Logs, Boars' Heads, Barons of Beef and Druidic mistletoe will all feature in the festival.

The wheat championship of the world, won by Canadian farmers fifteen times in the last nineteen years, has again returned to Canada, after being held for two years by the state of Montana. This year it was awarded by the unanimous decision of judges at the International Grain and Hay Show at Chicago to Joseph H. B. Smith, of Wolf Creek, Alberta, and formerly of Leicester, England. His farm is 400 miles north of the International boundary and 130 miles west of Edmonton. He won with a sample of Reward wheat developed at the Canadian Government Experimental Farm at Ottawa and put on the market in 1928.

Tractor School Well Attended.

The International Harvester Co. held a tractor school in Didsbury on Monday at the warehouse of W. G. Leisemer, their agent here. Considering the condition of the roads the school was very well attended, there being over 100 people present.

Mr. Hugh Glover, of Calgary was the first speaker. He spoke on the evolution of the tractors made by the International Harvester Co., showing the different tractors made from 1905 up to the latest 22-36 McCormick-Deering tractor which was placed on the market in 1929. He also gave general instructions on the up-keep of the tractor, advising his hearers how to take care of them. He also explained the company's policy regarding the exchange plan, showing the low cost of renewing parts after years of use and also dwell on the policy of the company in regards to service.

Mr. W. G. McMakin gave a talk on power machinery, showing that tractors were more economical to use than horses and how more work could be accomplished by using the tractor.

A moving picture was given in the evening showing interesting films. The opera house was crowded to capacity and everybody reported a good time.

Georgian Players Please Audience.

The United Church was fairly well filled on Wednesday night to hear the Georgian Player and judging by the applause the whole entertainment was thoroughly enjoyed. The entertainment was given under the auspices of the church board.

WHAT OTHER EDITORS ARE SAYING

WATERWORKS NEXT

The Calgary Power Co., who has in some instances, or are putting waterworks and sewerage systems in the towns of Magrath, Wetaskiwin, Lacombe and Camrose, has had its surveyors in town for several days. The object of their visit was to map out a scheme of things with the view of giving Olds a waterworks system without burdening the ratepayers with extra taxation, the cost to be borne by the users, who would be charged with a set monthly payment. In the case of Lacombe the flat rate is \$3.95 per month, which should make the average annual payment approximately the same as the local electric light accounts. This payment per month would also take care of the sewerage charges, but with this scheme the town would be called upon to assume the responsibility of paying for the whole sewerage plant. Our mayor (Robert Bowman Campbell) has been assured by the officials of the Calgary Power Co. that the said plant would be very modern, and the work will be done as at other towns, at an exact cost to the company. This expenditure will necessitate the borrowing of money by debenture, the ratepayers being sole judge and jury as to its acceptance or refusal. This new scheme is just on the threshold, of which our readers will be kept fully informed as to its development. It is estimated that the cost to patrons per month, if the scheme materializes, will be between \$3.50 and \$4.00.—Olds Gazette.

Walther League Conference.

The Walther League Winter Conference will be held in Calgary, Feb. 7 to 9. As usual five sessions will be held, including banquet on Saturday evening. In all sessions practical church work will be discussed. Mr. F. W. Walthermann of Chicago, conference director of the International League will be present and will give talks on Walther League methods. The inspiration services on Sunday evening will be conducted by Prof. Baepfer, of Edmonton. All young people, Walther leaguers or not, are cordially invited to attend.

"White Empresses" to Call at Honolulu.

that flings its crest high in proud greeting or dignified farewell, is now to be added to the westward route of the famous Canadian Pacific liners—the White Empresses that long ago gained for Canada the Blue Ribbon for speed on the Pacific.

Starting December 7th from Victoria and Vancouver the Empress of Canada, which has just returned to service after being equipped with the fastest and most powerful engines on the Pacific, will inaugurate the new service and will call at Honolulu six days later.

Glimpses of some of the features of the "Island Paradise of the Pacific" are shown above, with (left) the giant prow of the 21,500 ton Empress of Canada. Behind the flower-decked maidens may be discerned the stately outlines of Diamond Head, famous in song and story. At the right is the Aloha Tower of the docks, that spells a Hawaiian welcome to the traveller.

Passengers to the Orient by the new Canadian Pacific service will be given the opportunity of staying over for the next ship or of paying a visit during the twelve hours the Empresses remain in Honolulu. Visitors to the Islands who plan to leave Jack Frost behind have many options for their return voyage. Several lines have co-operated with the Canadian company, and, after a long lazy winter on the sands of Waikiki Beach, travellers may return to Vancouver by the Canadian Australasian Royal Mail Line direct, or may come back by a Matson Line steamer to Portland, Seattle or San Francisco, or to Los Angeles by the Los Angeles Steamship Company.

3075

The deep pointed effect of hipline is outstandingly smart in all-day dress of printed Rayon crepe in red-dahlia tones, so charmingly youthful. The collar and cuffs are of white crepe de chine daintily embroidered in dahlia shade around edge, a new note of Paris. They are also very smart made of white pique.

The narrow shoulders have pin inverted tucks. The molded bodice assures desired sleekness to wearer. The skirt starts to flare well below the hips, with graceful fluttering fullness at hem.

Style No. 3075 can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It makes up attractively in sheer woollens in tweed in new bright coloring covert cloth in plain or self-checked pattern, wool crepe, and Kashmir printed wool jersey.

It also adapts itself lovely to the supple silks in flat crepe, crepe de chine and faille silk crepe.

In black crepe satin it suits every demands for the socially busy woman. The collar and cuffs may be made of the dull side of the crepe or of contrasting shade as jade green, chartreuse, lemon-yellow or white.

Printed sheer velvet with canton crepe collar and cuffs is smart.

In plain transparent velvet with collar and cuffs of lace or metal cloth is luxuriously smart, either in black, bottle green or Independence blue.

Pattern price 25 cents.

Deaf Hear Again Through New Aid

Earpiece No Bigger Than Dime Wins Enthusiastic Following Ten-Day Free Trial Offer

After twenty-five years devoted exclusively to the manufacture of scientific hearing-aids, the Canadian Acousticon Ltd., Dept. 204c, 45 Richmond St. West, Toronto, Ont., has just perfected a new model Acousticon that represents the greatest advance yet made in the re-creation of hearing for the deaf. This latest Acousticon is featured by a tiny earpiece no bigger than a dime. Through this device, sounds are clearly and distinctly transmitted to subnormal ears with wonderful benefit to hearing and health alike. The makers offer an absolutely free trial for 10 days to any one person who may be interested, and a letter will bring one of these remarkable aids to your home for a thorough and convincing test. Send them your name and address today.

British Nobility Farmers

About Fifteen Thousand Acres Of Alberta Farm Land Held By British Nobility

About 15,000 acres of farm lands in Alberta are now owned by titled members of the British nobility. Of these, the Duke of Sutherland carries the largest holdings. The Duke of Sutherland and the Sutherland Land Company owns 9,202 acres.

Earl Minto is the second largest holder, with 1,908 acres. He is closely followed by the Prince of Wales, whose famous E.P. ranch consists of 1,655 acres. In addition to this, however, the Prince leases another 1,440 acres, so that his total holdings are 3,095 acres, which brings him, actually, into second place.

Lord Cheylesmore has 1,380 acres to his name in Alberta, and Lord Rodney, 618 acres. The Earl of Egmont still holds 320 acres near Pridis, in Southern Alberta.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Ideal Air Port

City Of Moose Jaw Claims To Have One Of The Ideal Airports Of the World

The Moose Jaw Board of Trade claims for its city the possession of one of the ideal airports of the world. It points out that the soil of the field is black loam with gravel subsoil, therefore free from the conditions which invariably obtain after heavy rains. The field has a natural drainage, is virgin prairie, absolutely even, and is an ideal, all-weather site. No quagmires are possible and large, heavily loaded machines experience no difficulty in taking off at any season.

Debt To Schoolmasters

Should Be a Pleasure To Do Honor To Those Who Taught Us In Our Youth

Too few of us do honor to those who taught us in our youth or are ready even to recognize the debt we owe to schoolmasters who guided us in early days. For this reason we call attention to the fact that within the past year two of the high school teachers, who taught Rt. Hon. Arthur Meighen, in the old St. Marys Collegiate Institute, have passed away in London, the late Stephen Martin, and last week Frank P. Riddell. In both cases Mr. Meighen took time from a busy life to come all the way to London to attend their funerals and to pay his last respects to his old teachers.

What is more, Mr. Meighen never forgot them in life. He never visited London without endeavoring to get in touch with his old teachers. The last time Mr. Meighen spoke in London, was to the Chamber of Commerce, last winter. One of his first acts, after arriving in the city, was to phone both men and arrange to see them. In Mr. Meighen's thoughtfulness and kindness in this respect there is a lesson for us all.—London Free Press.

An Unnecessary Evil

Medical Authority Says No Person Should Be Bald

A distinguished medical authority stated recently that baldness is unnecessary. He attributes the "parting of the hairs" to such causes as tight hats, indigestion, and lack of exercise. He is probably right—up to a point. Yet homely wisdom has declared in clear, but vulgar terms, that "you cannot grow grass on a busy street." Crude as it is, that has always been the comfort of the bald. They have believed that the glittering dome contains the finer interior. They have even argued that there is a majesty of outline in the unchecked upward sweep of the masculine brow. In short, while willing to try any new hair restorer put on the market, the bald refuse to believe that lack of hair lends anything but distinction.

Why Winter Is Cold

Why is it colder during the winter months than it is in summer? Many will immediately reply by saying that it is because the sun is farther away. As a matter of fact, the sun is nearer in winter than it is in summer, but it strikes the earth at a more decided slant in winter and thus does not warm us as does the sun of June, July or August, as it beams from directly overhead.

Logging In Northern Alberta Is Slack

Lumber Carried Over From Last Year Slows Up Work

Logging will be slack in northern Alberta this winter and there will not be the usual stir at the lumber camps. According to the manager of one lumber company, not more than 25 per cent. of the ordinary winter's logging will be done this coming season. The chief reason given for this is the enormous carry-over of lumber from last season.

This carry-over is due in large measure to the dry summer and consequent reduction in the wheat yield. The lumber business was dull all summer as a result of a drought affecting the farmers' building operations, many farmers having cancelled their plans for new buildings when the crops began to show the full effects of the dry summer.

Besides this there was a much smaller program of elevator-building in the country than in 1928, which was a record year. One big lumber firm states that its carry-over is 15,000,000 feet, the largest in the company's history.

Enough cars were produced in the first nine months of 1929 to lay all pedestrians end to end.

Opportunity knocks but once. That subsequent knocking you hear is done by your friends.

Peter the Great enjoyed riding in wheelbarrows.

That Cold

So miserable and lasting. Shake it off with Minard's. Heat and inhale. Also rub on throat and chest.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Heal It With Zam-Buk

To dress any Cut, Bruise, Burn, Scald, or Scratch with Zam-Buk means that pain is soothed away—that injured skin is instantly protected against poisonous germs—that natural healing is hastened. Even wounds that have taken "bad ways," and obstinate cases of Eczema, Psoriasis, Ulcers, Ringworm and Piles, are all successfully treated by this wonderful herbal balm.

50c. box, \$1 for \$1.25 all dealers.

Splendid For
SKIN TROUBLES

The Singing Fool

By HUBERT DAIL

Copyright, 1929, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, marries Molly Winton, a ballad singer, not knowing he is loved by Grace Farrell, a loyal little cigarette girl. After Al wins fame as a composer of popular songs, Molly elopes with John Perry, taking her baby, Junior, as she sails for France. Al, broken by the loss of his son, becomes a derelict, but is saved by Grace Farrell. Molly obtains a Paris divorce from Al, but Perry deserts her. Junior is taken ill. In New York Al scores a success as a revue singer and plans to marry Grace. The couple arrive at the theatre one night happy because of the news of Molly's divorce.

CHAPTER XXIX.

They were both radiant as they approached the doorkeeper.

"How are you, Shakespeare?" called Al, clapping the old man on the back. Then, quick as a wink, he snatched the chewed stub from the doorkeeper's mouth and replaced it with a four bit perfect. The oldtimer smiled delightedly and saluted as Al and Grace went on into the theatre.

A group of chorus girls, hoofers and singers, who went on early, were already standing near the wings, gossiping and laughing. They turned to greet Al and Grace.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did." —Mrs. Milton McMullen, Vanessa, Ontario.

Lydia E. Pinkham's
Vegetable Compound

Lydia E. Pinkham Med. Co. Lynn, Mass., U.S.A.
212 Broadway, Ontario, Canada

W. N. U. 1819

"Pretty soft for the little old black-face comedian, strolling in here at show time, and doesn't have to go on until nine," said a vivacious soubrette, smiling gaily.

"Soft is right," agreed Al. "You don't think I'd be in this revue if there was any hard work to do?"

The soubrette laughed. She and the others knew that Al was really the hardest worker in the show. He linked his arm familiarly in that of the little singer, pretending to glance apprehensively toward Grace.

"Let's step out tonight—you and me!" he remarked, sotto voice, to the soubrette. "Supper—wine—music—eh? What do you say?"

Again he looked toward Grace, but she only stuck out her tongue at him ever so slightly and refused to become jealous.

Meanwhile, the soubrette had drawn away in mock hauteur. "Sir, I don't know you. Besides I've an engagement after the show with four great big oil-and-money men from the southwest."

"That's three too many," said Al lightly and, slipping his arm around Grace, he strolled on toward his dressing room.

He was in good humor tonight, not only because he realized that he and Grace were soon to be married, but because he had at last persuaded Grace to leave Blackie Joe's. She had hung onto that job of hers at Blackie's like grim death, refusing to give it up until recently.

"I'd feel lost without it, Al," she had said when he first broached the subject of her leaving. "Besides, I feel loyal to Blackie. He's looked after me and protected me."

"Yes," said Al, "but you've been there four years. That's long enough. Blackie will hate to lose you, but he'll be good about it. I want you to have some rest."

So Al had his way; just today Grace had said good-bye to Blackie's and given up her tiny room in the Waverley Place lodging house to move uptown to more palatial quarters.

As they headed through the backstage corridors a page hurried up to Al.

"A lady wants you on the 'phone, Mr. Stone."

"A lady," repeated Al. "What is this strange power I have over women? Was it a blonde or a brunette voice?"

The page boy grinned while Al went off to answer the 'phone. Grace strolled slowly after him, wondering who was calling. She saw him pick up the receiver and hear him say casually:

"Yes, this is Mr. Stone speaking. Who's this?"

Then Grace saw a pained, almost bitter expression pass across his features. His face went pale and he clapped his hand over the transmitter and turned to whisper:

"It's Molly."

A stab of pain shot through Grace. Had her fear that Molly would turn up to make trouble come true? Al drew back from the 'phone as if he would hang up; then he reconsidered.

"What is it?" he asked coldly.

Grace saw him nod, then he hung up the receiver and turned to her again.

"Molly says to come to the Good Samaritan Hospital as fast as I can."

"Why?"

"She didn't say. Simply that, and hung up. I wonder if it's a trick of some kind?"

Grace's eyes narrowed; her heart was throbbing hard and fast. But she forced herself to say:

"You ought to go, Al."

"I suppose so. Yet every time Molly has come into my life it has meant misery."

Yes, but—Grace paused. "Do you think there's anything the matter with your boy?"

The suggestion electrified Al into action. "I'll go! And you wait here, Grace. I'll be right back." He ran toward the stage door. When Grace reached it he was already in his car and the motor was whirling. She saw him shoot down the alley and out toward the lights of Broadway.

It was the theatre hour—the streets were loaded with traffic. It seemed to Al that he would never be able to force his way through the jam. But finally he did work out of the theatrical section and went speeding along a quieter street, then out the Avenue.

How did Molly happen to be in America so quickly after her divorce; why had she called him; was Junior ill? These questions and a swarm of other queries raced across Al's mind.

ASTHMA

FREE TRIAL PACKAGE of Dr. J. H. Guild's Green Mountain Asthma Compound sent on request. Originated in 1869 by Dr. Guild, specialist in respiratory diseases. Its pleasant smoke vapor quickly soothes and relieves asthma—also catarrh. Standard remedy at druggists, 35 cents, 60 cents, and \$1.50. Powder or cigarette form. Send for **FREE TRIAL** package of 6 cigarettes. Canadian Distributors, Lyman, Ltd., Dept. BB-2, 286 St. Paul St., West, Montreal, Canada.

Dr. Guild's GREEN MOUNTAIN ASTHMA COMPOUND

He sat at the wheel, with grim face and fixed, tortured eyes. Sheer force of habit took him through the traffic unscathed.

He recalled Junior as he had seen him last on that memorable afternoon in the park, roly-poly and the picture of health. It seemed to himself impossible that anything tragic could have happened to his beloved child. Surely Grace was wrong.

But Grace was right. In a tiny bed at the Good Samaritan lay Junior, his eyes listless, his face wasted and as white as the sheets, except for a tiny crimson spot on each cheek.

He roused himself, finally, and whispered to Molly, who hovered over him:

"Is Daddy coming? I want my Daddy?"

Molly had been standing by Junior's bedside, rigid with fear. As he spoke she leaned over quickly and touched his tiny, thin fingers.

"Yes, darling, Daddy will be here soon. He's on his way. Just a few moments and you'll see him."

Junior turned away from her with a sigh and his eyes closed, as if the strain of his question had taken his fast-fading strength. He did not see the expression of agony on his mother's face and her tears that fell unchecked on the coverlet.

Now the doctor came forward and tapped Molly on the arm. She followed him from the little white room into the hallway, clasping her hands before her as she gazed beseechingly up into his eyes. Her face was aged by the terrible experiences she had lived through during the past few weeks.

"Is there any hope?"

"I'm afraid not," said the doctor gently. "The thing has made too much progress—his lungs are almost entirely gone. He hasn't the strength to fight the disease."

Molly turned away, sobbing convulsively. She didn't want to hear details if there was no hope. She realized only too well that her own neglect of Junior had started him toward this tragic condition. After Perry's desertion of her in France she had reclaimed her boy, but it was too late. She had seen him waste away before her eyes, in spite of all the French doctors could do. Finally, in a panic, she had raced to Cherbourg and taken a fast liner to America. Then another race to the hospital when they arrived in New York the night before. Not until the terrible fear seized her that Junior was really dying did she call Al.

She glanced out the hallway window to see a sport car swoop up the street to the curb and stop. Al jumped out and ran toward the hospital entrance. Molly met him.

(To Be Continued.)

Canada and Air Traffic

All Air Highways Of Northern Hemisphere Will Pass Through Dominion

Addressing the Canadian Club, of Montreal, on expanding trade prospects in Canada, John W. Daffoe, managing editor of the Manitoba Free Press pointed out that, "all the air highways of the northern hemisphere pass through Canada, not the United States. The route from New York to the cities of Asia will pass, not through San Francisco or other ports of the Pacific states, but over the Canadian border up to Toronto and then north to Nome. The route from the central states to Europe will go north to Winnipeg." He added that not certain sections of Canada but the whole of the Dominion would benefit by the air traffic in question.

Queer Animals In Zoo

In the "Aye-Ayes," the old London Zoo has a pair of the weirdest animals in the world. They have been referred to as the animal night mares. They are about the size of a cat, have large, bushy tails and a head resembling that of a bat. The body is covered with long, streaked fur. Its middle finger resembles that of a human. They are great egg eaters.

Falling Hair—Just try Minard's.

Drought-Resisting Animals

South African Sheep Manage In City Without Water For Three Years

A flock of 600 sheep on the South African Government farm at Graaff Reinet, have just had their first drink of water for three years, but many, having lost their taste for it, turned away disgusted.

These sheep have been the subjects of prolonged experiment as drought-resisting animals, and during the whole period they have been fed on oil cake and prickly pear only, without any form of liquid.

It has been found the prickly pear—which hitherto has been regarded as a grave menace to farmers in South Africa and Australia, where thousands of acres have been ruined by it—contain all the necessary moisture to sustain livestock indefinitely.

During the three years lambing and the wool yield have been perfectly normal.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The ills of little ones come quickly and unless the mother is prompt in administering treatment a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand—why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Isaac Sonia, St. Eugene, Ont., writes:—"I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Hurdy Gurdy Must Go

The picturesque hurdy-gurdy and its monkey are doomed on the streets of Havana, Cuba. The mayor has issued an edict barring them from the city streets. It has been decided that the organ grinder and his monkey fall under the ordinance which prohibits unnecessary noises on the streets.

Head Colds relieved with vapors

SNUFF a little Vicks well up the nose or melt in a spoon or cup of hot water and inhale.

Medicated vapors reach the air passages direct.

Little Helps For This Week

"Thy kingdom come." — Matthew vi. 10.

Thy kingdom come with power and grace

To every heart of man;
Thy peace, Thy joy, Thy righteousness,

In all our bosoms reign.

—Charles Wesley.

The kingdom of heaven is not come when God's will is our law; it is come when God's will is our will. While God's will is our law we are but a kind of noble slaves; when His will is our will we are free children.

Philamon had gone forth to see the world, and he had seen it; and he had learned that God's kingdom was not a kingdom of fanatics yelling for a doctrine, but of willing, loving obedient hearts.—Charles Kingsley.

Lake Winnipeg Whitefish

Research workers and biologists are interesting themselves in the whitefish shortage in Lake Winnipeg. They claim that this water can support 90,000,000 whitefish, whereas it has only approximately 6,000,000.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

A technicality often gets an innocent man in trouble and guilty one out.

Dragon flies eat mosquitoes.

Needless Pain!

Nowadays, people take Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Aspirin tablets are absolutely harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but

you can always turn to an Aspirin tablet for relief.

Aspirin is always available, and it never fails to help. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

Burnside Notes

Born, at the Didsbury Hospital,
to Mr. and Mrs. Chris Erhet, a
son.

Quite a few from this district
took in the tractor school in town
last Monday.

The Jutland W. C. T. U. met at
the home of Mrs. T. H. Hunter on
Wednesday of this week.

Mr. George Saunders spent the
week-end in Calgary visiting with
friends.

Burnside U.F.A. will meet at the
Lone Pine Hall and Monday even-
ing, Feb. 10th.

The annual meeting of the Lone
Pine Hall will be held on Wednes-
day evening, Feb. 5th.

Mr. Tennis Sick who has been
on the sick list is gradually im-
proving.

The Lone Pine W.I. will meet at
the home of Mrs. Mardon, on
Tuesday, Feb. 14th.

Fred Metz spent Sunday evening
with Cecil Cipperley.

Mrs. Bert Pross who has been
spending the winter visiting rela-
tives in Manitoba returned home
last Thursday.

The dance scheduled for Jan 31st
in the Lone Pine Hall has been
postponed on account of the bad
roads.

A joint birthday party and dance
in honor of Miss Violet Viney and
Mr. Cecil Cipperley was held in the
Stuart School last Friday evening.
A good time was enjoyed by every-
one present.

Melvin Notes.

Don't forget the box social and
dance at Melvin, Jan. 31st.

The Westerdale club have a very
good toboggan slide. The Melvin
young people are helping to enjoy
the sport on Tuesday evenings.

The Rugby Cheer-Up Club got up
a sleighing party last Wednesday
night and wended there way to
Melvin, spending a couple of hours
playing games with the Go-Getters.
After supper was served they invit-
ed the Go-Getter to visit them this
Wednesday evening at their club
at Rugby. All seemed to have a
good time.

Mr. G. Carlson received word on
Saturday that his father had passed
away at the old age of almost
90 years, at his home near Mun-
son. Mr. and Mrs. Olson were
Melvin old timer, at one time liv-
ing on the Blind Line just east of
the Dog Pound. Mr. and Mrs.
Carlson are attending the funeral.
Much sympathy is extended to Mrs.
Olson and family.

Rheumatism no Part of Nature's Plan

She offers her healing herbs
to stop suffering

When America was wilderness, Indians
were using herbs successfully. From
the Redmen, 50 years ago, James
Gallagher learned herbal secrets and
compounded Gallagher's Herbal House-
hold Remedies. His famous Kidney
Remedy has helped many a sufferer
from Rheumatism.
This fine, time-proved remedy, drawn
from the heart of Nature, heals and
cleanses kidneys. Quickly stops back-
ache, dizziness and other nagging kidney
and bladder ailments. Try it! For
